Shantanu Kotambkar

General Meeting Info

Meeting Purpose: Customer Meeting

Start Time: 16:10

Stop Time: 16:35

Old Business

Action Item Status: N/A [first meeting]

New Business

Discussions Summary:

We could not get into too much technical aspects of the project because Prof. Bryce Himebaugh has not yet met the external customer.

We cleared a few ambiguities as to what we would display on the web page and the sensor data. We understood the basic overview of the requirements and certain working and functionalities to be implemented.

We came to an understanding as to what would be expected at the end of the first sprint.

Decisions Summary:

By first sprint a web page with login and add user functionality.

New Action Items:

- create a website with login and user creation
- create GitHub account
- create Jira account

Person responsible: Adarsh Bhandary
